## Fish Fry, September 2nd, 7 PM at the Range

### Quail Hunting Trip

With Quail hunting opening October 3, 2009 in Eastern Washington we are planning a hunting trip to Brewster, located about 64 miles north of Wenatchee. We will be headed to Brewster on Friday October 2 and start hunting on Saturday the 3<sup>rd</sup>. I plan to stay into the next week sometime probably Tuesday or Wednesday.

There are 2 places to stay in Brewster, one is in the town of Brewster at the Columbia Cove RV Park and the other is a primitive camping area in the Indian Dan Canyon portion of the Wells Wildlife Area. Most of us will stay in the canyon, but remember there's no water available there and no toilet.

To get to Indian Dan Canyon take Highway 97 north from Wenatchee (about 62 miles) and turn left on Indian Dan Canyon Road (this is before the town of Brewster).

Take the first left hand Y in the road, this should be Getz road and follow till you come to a small lake/pond on the left, follow the road around past the lake and we will be camping in the parking area.

If you are interested in going on this trip and need better di-

rections contact Fred Burr or come to the next club meeting and I'll try to have some maps available. So clean those shot guns, dig out your hunter orange and we will see you in Brewster.

### Next Club Meeting & Fish Fry

We will be having our annual Fish Fry and September Club Meeting on Wednesday September 2<sup>nd</sup>, 7 PM at the range. Some topics to be covered are do we want to do a September salmon fishing trip to Sekiu or a local club salmon derby? Quail Hunting trip to Brewster

and our up coming officer elections in November.

So come down to the range, eat some fish and we'll see you at the meeting. †

### Fishing Limits Lifted on Some Eastern Washington Waters

OLYMPIA - Catch and size limits have been lifted temporarily for fisheries in about two-dozen eastern

Washington waters scheduled for rotenone treatments to improve future fishing.

Anglers will be allowed to take unlimited fish from the targeted waters before they are closed for rotenone treatment to eliminate undesirable fish species that compete with trout, according to Jim

## Salmon Bake

We had our annual Club Salmon Bake on August 5<sup>th</sup> at Lincoln Park. The weather was perfect, after a cloudy morning, the sun came out for the evening and our dinner. The salmon, fried clams and ling cod were excellent as usual. Roz made some of her great crab dip (see Rolf's Cooking Corner for recipe) for an appetizer too. We had a lighter than expected turn out but that left lots of Salmon for all who came.

If you did not make it this time be sure to come next year. Here are a few pictures from the event. †

Thanks for catching the Salmon Fred!

Uehara, a fisheries manager with the Washington Department of Fish and Wildlife.

Rotenone, a naturally occurring substance derived from the roots of tropical plants, has been found in scientific studies to present no significant health risk to people, pets, livestock or wildlife. The lake rehabilitations are carried out under a permit from the state Department of Ecology.

Most of the waters scheduled for treatment this fall have overly abundant popula-

tions of carp, tench, goldfish, sunfish or other small species, and most will be restocked next year with rainbow and/or cutthroat trout. Cee Cee Ah Creek in Pend Oreille County will be treated to remove eastern brook trout populations, in an effort to restore native westslope cutthroat trout.

By county, rule changes and closure dates for waters scheduled for treatment are:
