proposed dues increase. This proposal was talked about at the last club meeting. The increase would help to cover general expenses and rising costs for insurance and supplies.

After the elections and any other club business, we will be having our annual Club Turkey Shoot. We will be using the club's Air Pistols for this event. There will be two chances to win a turkey. The first will be a skilled match where the highest score wins. The second match is luck, where we will be shooting at non-conventional targets.

Dues Increase Proposal

This proposal was brought forward and seconded at our October General Meeting. We will vote on the revised proposal at the November General Meeting on November 2nd. Please be sure to be at the meeting to vote. You can contact Greg Boyd (206-818-4469) with any questions on this proposal.

Original Proposal: Increase dues by \$10 per year and obtain Officers Insurance.

Revised Proposal: Increase dues by \$5 per year and obtain Officers AND Instructors Insurance.

Proposal details:

During our last general meeting, we discussed an insurance policy that our club is lacking that is pretty standard at every other club and corporation. While our general liability policy protects the Club and members from liability in the case someone gets hurt, there are many other liabilities the officers are subject to in the course of conducting club business that we have no protection against currently. Pretty much any lawsuit against the club, including accident, policy and financial would also name each of the officers individually. In essence all of the officers are personally liable for anything any of our members do. The standard policy that organizations have to protect against this is Directors & Officers Insurance (D&O policy). This has been a concern amongst the officers for a number of years and we're getting more people

line before you go at <https://secure.ynwildlife.org/permits/>. A three day license is \$22 and it is \$37 for the entire season. It takes about a week to receive it in the mail but you can print off a temporary good for two weeks when you buy one online. Reservation hunting hours, rules and maps of posted feel free to hunt areas are also available at the above web site. Daily bag limit is 3 Cock Pheasant and 10 Quail. not willing to assume this personal liability for the privilege of volunteering.

The proposal at the last meeting was that we would get a quote for this additional coverage and raise dues by \$10 to cover it, but after getting quotes and discussing it at the last officers meeting we would like to modify the proposal for the better.

In obtaining the quote we found another area we are at risk and that's for our instructors and coaches. They also have a unique liability in that someone in one of their classes could go off and have an accident, then try to blame it on their instruction. That type of litigation would be against both the club and the instructor personally. We feel that it's not reasonable to expect our volunteers to bear the entire risk/cost alone, in performing club duties and it's more fair to try to spread out the costs.

Dues from page 2

We also realize that the economy is pretty tough right now and forcing a \$10 membership fee increase might be hard on some of our members so we'd like to propose a \$5 membership fee increase for this year, which would bring it up to \$40.

The quote for both the D&O policy and the instructors policy is \$1240 per year. Our proposal to pay for this would be to move the payment of our general liability policy from our general fund back

Volume 77, November 2011 **4**

to our range fund, where it was paid from until two years ago. We would then pay the D&O and the instructors policies from the general fund. These two policies are actually more expensive than our general liability policy so the \$5 dues increase would make up the difference from what our general fund is currently paying for insurance. This plan would have the result of the range fund not having any more burden then it did until the last couple of years and the general fund wouldn't have any more burden than it did the last couple years. It also drops our proposed \$10 dues increase down to a \$5 increase.
